

Exploring the countryside safely this spring

✓ Stay safe – use a lead around livestock as your dog can scare or harm farm animals. Release your dog if chased by cattle.

✓ Bag it and bin it – any public waste bin will do. Dog poo can spread disease to farm animals.

✓ Stay calm and walk quickly and quietly around the herd if cows follow you. Re-join the path as soon as you can.

✓ Follow your vet's advice on worming, for the health of your pet and farm animals.

More than
6 MILLION
ewes will give
birth to lambs
this spring
